### NOTICE.

All orders for goods to be sent by mail from parties not having an account with us, must be accompanied with the money, as per Price List, including postage.

We take great pleasure in informing our customers that we have found the above manner of sending packages by mail to be a decided success, thus avoiding all delay and heavy express charges, and enabling the custom shoemaker in any of the States or Territories to send to us for a single pair of Uppers, and get them by return of mail, and at the same time to supply his customer with the very best material, and most fashionable style of Gaiter or Boot that can be made in New York.

To parties ordering goods and not having a credit with us, we send by express "Cash on Delivery." When the amount exceeds twenty dollars, we pay the express for bringing the money to New York; but small orders should be accompanied with the money, or post-office money order, thus saving the return charges.

Mention "ship by mail" on every order that you require to go that way, and enclose the price and postage. Goods not ordered to go by mail will be sent by express.

Knives, Leather or Rubber Cement cannot be sent by Mail.

# NOTICE.

WE MANUFACTURE THREE GRADES OF UPPERS.

## 1st, 2d and 3d Grade.

---

**1st Grade** we cut from the best brands of French stock, and fitted with the best material and great care. The large and increasing demand for them proves that they are giving entire satisfaction. It is our desire to have them the best Upper that can be manufactured.

**2d Grade** compares favorably with the general Upper manufactured, and at a much less price. They are cut from good stock, and will wear well.

**3d Grade** is a durable Upper, made from stock that will wear well, but have not the finish of the better grades. The increased demand for Uppers has caused us to add largely to our facilities for manufacturing, and we will fill the largest orders from Manufacturers or the Finding Trade promptly.

If possible, please send sample of the Leather you wish Uppers made from, to avoid mistakes, and if calf skin to show substance required.
